

OASTON ENGINEERING LTD

ENVIRONMENTAL AND SUSTAINABILITY POLICY

Oaston Engineering Ltd top management recognises the need for implementing and managing environmental controls within the company operations

The company carries out its activities in line with the ISO 14001 Environmental Management System to ensure the minimum impact on the environment and to ensure measures are in place to prevent risk to both the company and the environment that are appropriate to the purpose and context of the company.

The company aims to continue to seek further opportunities for reducing waste and improving recycling methods.

A proactive approach to environmental management will ensure awareness of changes to legal obligations and continued improvements of the environmental performance of the company

Employees will be encouraged by top management to take responsibility for environmental issues by means of training and communication.

Specific and measurable environmental objectives and targets will be reviewed and discussed at management review

The company will encourage all third parties involved to implement similar standards and controls ensuring all materials purchased are from sustainable sources.
